

Valkyrie Publishing announces the release of the free ebook by Theresa Chaze, *Sisters, Mothers, Daughters-Tales of the Relationships Between Women*. Using the fantasy genre, the short stories explore the complicated and ever changing relationships between women. Other worlds, differing religions, and political view points come together as women explore themselves and their life's path. Sometimes controversial, sometimes frightening this collection of short stories reveals the multi-dimensional spirit of the every changing woman.

#### *And Freedom for All*

Politically relevant and controversial, *And Freedom For All*, projects into the future what life will be like once the religious right has gained power over the United States. Laws are in acted and interpreted according to their Christian doctrine, leading to the over turn of *Roe vs. Wade* and to a great division between the states. Pregnant by a man who sees her more as possession than a partner, Daphne asks childhood friend, Melanie to help her to escape to a free state.

#### *It's My Funeral, I'll Disco if I Want*

In *It's my Funeral, I'll Disco If I Want*, Resa has prearranged her own funeral according to her Wiccan beliefs. Caroline, her spirit guide to the Summerland and long time friend, arrives to escort her to the other side, only find that Resa refuses to leave until after her funeral. Instead she wants to watch as her frustrated birth family is forced to accept in death what they couldn't accept about her in life.

#### *Seize of Honor*

*Seize of honor* is an other worldly tale of how Kelly O'Dell accidentally killed the children of the natives she is attempting to communicate with them to save her people. These are only examples of the tales told in *Sisters Mothers Daughters* as women strive to understand themselves and each other. Each of these women must look to their own hearts and ask themselves--am I strong enough?
